

Messenger

Messenger combines leading edge design with outstanding resilience. The sharp lines and superb finish create an impression that is both bold and contemporary.

Messenger has a full range assortment from ID sign to desk sign.

Beautifully Finished

to ensure lasting quality, all panels are oven hardened to your colour specifications. Graphic opportunities from print on panel to vinyl opens up unlimited design possibilities.

Messenger Exterior

is designed to withstand extreme weather conditions, accidental damage and vandalism. Construction is from aluminium and galvanised steel for strength and durability. Panels are stove-enamelled to your colour specifications to create a superb lasting finish.

Messenger Interior

offers a wide selection of standard size panels, while other sizes can be custom-made. The panels are fixed to a robust frame to create a light, strong structure. All components are manufactured to ISO 9001 standards, guaranteeing consistency and quality of finish.
