

Panorama

Elegant Paperflex system which is ideal for environments where signs are regularly updated.

Elegant design

Panorama's gently curved fascia creates a professional and welcoming appearance. It is frequently used in combination with other Modulex interior sign systems to extend their flexibility.

The assortment

There are three sizes of wall-mounted frames - A3, A4 and door sign format 110 mm x 140 mm - and the frames can be produced in any colour.

Easy up-date

There is an optional software package called SignSoft which has been specially developed by Modulex. SignSoft helps you manage frequent organisational changes and create your own signs which can even incorporate symbols and corporate logos.
